

The Tares (Cares) of the World

By Pastor Calvin A. Levy

August 10, 2008

Matthew 13:24-30;36-43

Wheat

1: a cereal grain that yields a fine white flour used chiefly in breads, baked goods (as cakes and crackers), and pastas (as macaroni or spaghetti), and is important in animal feeds

2: any of various Old World annual grasses (genus *Triticum*, especially *T. aestivum* and *T. turgidum*) of wide climatic adaptability that are cultivated in most temperate areas for the wheat they yield

3: a light yellow

Tare

1: a: the seed of a vetch **b:** any of several vetches (especially *Vicia sativa* and *V. hirsuta*)

2: a weed of grain fields especially of Biblical times that is usually held to be the darnel

3: *plural:* an undesirable element

Vetch

1: any of a genus (*Vicia*) of herbaceous twining leguminous plants including some grown for fodder and green manure

- As I was working in the yard this week, I believe the holy spirit began revealing and sharing with me the understanding of weeds. Why weeds some may ask? (Joke: Not weed...canibus...weeds)
- As I pulled the weeds up carelessly, the grass came up with it. I had to focus prior to pulling.
- I learned it was best to let the weed mature and grow so that it was more easily identified therefore making the separation less strenuous and complicated.
- Cares of the world, problems in your life are more identifiable when larger. No guess work. Have to maintain focus when dealing with them.
- Satan plants these problems into your life. You plant problems into your life. As you mature more spiritually, your issues become more self-identifiable. Deal with them spiritually in order to rid yourself of them carnally. (Describe the story of Job.)
- Line up with the Word of God. Line up with His will in your life.
